

"ALDE works."

"There's a lot of institutional knowledge here: people who know people, and organizations that have served Christ for decades or longer. These are the peers and mentors who will help you **unchain your potential**.

Thanks to support from ALDE members and educational offerings, we were able to create a beautiful social media and video campaign that showed our donors how they could fulfill their desires to help our students grow in knowledge and in Christ.

Truly, ALDE members will **rally around you** to help you and your mission succeed. It is an organization that **serves you so you can best serve others**. What you learn through IGNITE, webinars and the website is something that's going to stay with you in your current position and throughout your career.

ALDE works."
